## **Contents**

Live Surgery

Videos

Didactic lectures

Case analyses

Interactive panel discussions

New breakthrough procedures

Medical rhinoplasty panel

Selected abstracts corner

## **International Faculty**

Frédéric Braccini – Nice, France

Nazim Cerkes – Istanbul, Turkey

Louis P. Dombard – Bruxelles, Belgium

Charles East – London, UK

Hossam M.T. Foda – Alexandria, Egypt

Olivier Gerbault – Paris, France

Wolfgang Gubisch – Stuttgart, Germany

Bahman Guyuron – Cleveland, USA

Dirk Jan Menger – Amsterdam, Netherlands

## **Italian Faculty**

G. Bernabei – Milano

G. Botti – Salò

R. Bracaglia – Roma

S. Bruschi – Torino

G. Giudice – Bari

P. Gottarelli – Bologna

S. Grappolini – Milano

A. Grisotti – Milano

F. Ingallina – Paris, France

M. Klinger – Milano

S. Mocella – Verona

E. Muti – Torino

P. Palma – Milano

M. Pelle Ceravolo – Roma

S. Pompei – Roma

L. Vaienti – Milano

# Introduction

Dear Colleague,

It gives us great pleasure to invite you to the Second Bergamo Biennial Open Rhinoplasty Course, specifically devoted to open rhinoplasty, whose Faculty includes reputed masters who mainly or exclusively practice the open approach. This intensive symposium will be practical in nature, and will focus in detail on state-of-the-art primary and secondary open rhinoplasty techniques, with due emphasis on aesthetics and function, in a personal and approachable format. A limited enrolment will encourage and maximize exchange between participants and Faculty.

The course is aimed to all physicians performing nasal surgery, mainly plastic, ENT and maxillo-facial surgeons. It will cover in depth both the basics of the open approach for the beginner, as well as serve as a refresher and address refinements and specific advanced details for the proficient rhinoplasty surgeon.

Lectures and videos will systematically analyze specific and sequential topics, with adequate time allotted for discussion with the audience and a maximal educational benefit. The personal approach to open rhinoplasty of each Faculty member will be emphasized, and interactive panel discussions and case analyses will add to a mutual learning experience. Live surgery, telecasted from the "Ospedali Riuniti", will again be a highlight of the course due to its stimulating educational benefit, allowing a proper view of technical pearls and fine details, as well as continuous interaction with the audience.

The First Bergamo Open Rhinoplasty Course, held on November 28-29, 2008 at the same location, counted a large international participation with attendees from 19 different countries, and enjoyed a positive response well beyond our expectations. In response to attendee requests and feedback from the evaluation forms, the Second Course will be even more comprehensive, being lengthened to two-and-a-half days in duration, and will include:

- an expanded International Faculty
- more topics
- more videos, including 3-D videos and interactive videos commented by the author
- live surgery
- interactive panel discussions and case analyses
- emphasis on tricks and tips
- new breakthrough procedures
- even greater opportunities for audience interaction with the Faculty

Also, a specific panel will address the emerging but confusing topic of "medical rhinoplasty", including the use of botulinum toxin to the tip and the correction of specific contour deformities by fillers. Finally, a "selected abstracts corner" will offer participants the opportunity to present chosen communications of obvious merit, with a prize awarded to the best presentation.

The modern Congress Center is located at walking distance from the railway station, and can be reached in a few minutes from Bergamo/Milan's Orio Al Serio International airport which serves many international destinations, as well as directly from the motorway exit. In March the weather in Bergamo is usually mild, and should allow some sightseeing or leisure activities in our historical city or its equally interesting surroundings. For further information about Bergamo and its scheduled events, please consult the "Key to Bergamo Tourist Magazine", on the web site <http://www.turismo.bergamo.it>

We hope you will join us in Bergamo on March 11-13, 2010 and help us make this meeting a truly international event.

*Enrico Robotti and Riccardo Mazzola*  
Course Directors

# Program

## Thursday, March 11

- 12:00-13:00 Registration  
13:00-13:10 Welcome and introduction

### **Basic Principles** - Moderators: E. Robotti, R. Mazzola

- 13:10-13:40 "Open Anatomy": 3D video (cadaver) - L.P. Dombard  
13:40-14:00 Photography and computer imaging - N. Cerkes  
14:00-14:10 Facial analysis and preop clinical analysis of the nose - B. Guyuron  
14:10-14:20 The rhinoplasty consultation: evaluating the candidate (S.I.M.O.N. vs. S.Y.L.V.I.A.) - C. East  
14:20-14:30 Male and teenage rhinoplasty - C. East  
14:30-15:00 Rational sequence of open rhinoplasty (video) - B. Guyuron  
15:00-15:30 Basic steps of open rhinoplasty: 3D video - L.P. Dombard  
15:30-16:00 Open rhinoplasty technique (video) - N. Cerkes  
16:00-16:10 *Questions and answers*  
  
16:10-16:30 *Coffee break*  
  
16:30-16:45 Transition from closed to open rhinoplasty: why I changed - W. Gubisch  
16:45-17:00 "Less": accomplishing more by doing less: why I didn't change - P. Palma  
17:00-17:20 Dynamics of rhinoplasty - B. Guyuron  
17:20-17:35 Minor rhinoplasty maneuvers with a Major impact - B. Guyuron  
17:35-17:45 Peri and post-operative management - D.J. Menger  
17:45-17:50 *Questions and answers*

### **The Tip (part I)** - Moderators: B. Guyuron, W. Gubisch

- 17:50-18:05 Tip sutures - indications/techniques - B. Guyuron  
18:05-18:20 Tip grafts - D.J. Menger  
18:20-18:35 Increasing and decreasing tip projection: the dynamic tripod concept - B. Guyuron  
18:35-18:50 Managing tip projection (video) - L.P. Dombard  
18:50-19:20 Tip surgery via the open approach: droopy tip, lateral, crural steal, overlay and tongue-in-groove (video) - H. Foda  
19:20-19:30 Transalar mattress sutures: aesthetic and functional value - O. Gerbault  
19:30-19:40 *Questions and answers*  
19:40-19:50 Follow-up on the cases of the First Course - G. Aiach, W. Gubisch, L.P. Dombard  
20:00-21:00 *Cheese and Wine party*

## Friday, March 12

### **The Tip (part II)** - Moderators: H. Foda, C. East

- 07:30-07:45 Increasing and decreasing the length of the nose - W. Gubisch  
07:45-08:00 The short nose (video) - S. Bruschi  
08:00-08:15 Alar base and medial crura footplates surgery (video) - B. Guyuron  
08:15-08:25 Narrowing the nasal base: the combined alar base excision technique (video) - H. Foda  
08:25-08:35 Proper treatment of the nasolabial angle - M. Pelle Ceravolo  
08:35-08:50 Reshaping the tip - R. Mazzola  
08:50-09:05 Septal extension grafts and variations to stabilize the tip - E. Robotti  
09:05-09:15 *Questions and answers*

**The Dorsum** - Moderators: N. Cerkes, L.P. Dombard

- 09:15-09:30 Precision in dorsum alignment: incremental reduction (video) - H. Foda  
09:30-09:45 Contouring the nasal bridge and radix for a proper dorsum - D.J. Menger  
09:45-09:50 *Questions and answers*  
09:50-10:10 *Coffee break*  
10:10-10:25 Osteotomies (external / internal) - L.P. Dombard  
10:25-10:45 Dorsal aesthetic lines: spreader grafts and autospreaders - N. Cerkes  
10:45-10:55 *Questions and answers*

**Deviation and Function** - Moderators: O. Gerbault, D.J. Menger

- 10:55-11:10 Functional considerations in rhinoplasty: septum, valves, turbinates - P. Palma  
11:10-11:30 Septal deformities and septal surgery - B. Guyuron  
11:30-11:45 Managing the nasal valves - W. Gubisch  
11:45-11:55 Managing the turbinates: Modified Inferior Turbinoplasty (video) - P. Gottarelli  
11:55-12:10 The crooked nose - H. Foda  
12:10-12:30 The deviated nose (video) - C. East  
12:30-12:50 Extracorporeal septoplasty (video) - W. Gubisch  
12:50-13:00 *Questions and answers*  
13:00-14:00 *Lunch*

**Secondary Rhinoplasty and common complications** - Mod.: W. Gubisch, B. Guyuron

- 14:00-14:30 Principles of secondary rhinoplasty - B. Guyuron  
14:30-14:45 Complications: how to prevent them  
Avoiding the ten most common rhinoplasty flaws - B. Guyuron  
14:45-15:15 Complications: how to solve them  
Dorsum irregularities, Saddle nose, Overresection of lower lateral cartilages, Pollybeak, Osteotomy errors - W. Gubisch  
15:15-15:35 Secondary rhinoplasty (video of G. Aiach) - O. Gerbault  
15:35-15:50 Revision Tip surgery - H. Foda  
15:50-16:00 *Questions and answers*  
16:00-16:15 *Coffee break*  
16:15-16:30 Diced Cartilage and Fascia in augmentation rhinoplasty (video) - O. Gerbault  
16:30-16:40 Auricular cartilage grafts in rhinoplasty - C. East  
16:40-16:50 Costal cartilage grafts in rhinoplasty - N. Cerkes  
16:50-17:00 Calvarial and mandibular grafts in rhinoplasty - R. Mazzola  
17:00-17:10 Camouflage techniques for rhinoplasty defects - O. Gerbault  
17:10-17:20 Management of external valve collapse and stenosis of the nasal vestibule - D.J. Menger  
17:20-17:30 Septal perforations repair (video) - S. Mocella  
17:30-17:40 *Questions and answers*  
17:40-18:25 PANEL "The closed alternative, with shared concepts" - G. Botti, M. Pelle Ceravolo, M. Klinger  
18:25-18:35 Finesse use of grafting at the end of an endonasal rhinoplasty - G. Botti  
18:35-19:00 PANEL "2 cases in 5 minutes" - A. Grisotti, G. Giudice, S. Grappolini, S. Pompei, L. Vaienti  
19:00-19:30 Selected Abstracts Corner - Moderators: A. Grisotti, L.P. Dombard  
19:30-19:40 Tomorrow's case: how I will do it - B. Guyuron, W. Gubisch, H. Foda  
19:40 Adjourn  
20:30 *Gala Dinner*

## Saturday, March 13

- 07:50-08:00 Presentation of today's three cases "how I will do it" (taped yesterday)
- 08:00 **Live Surgery 1** - B. Guyuron  
Discussant from the Auditorium: C. East  
Discussant from the Operating Room: W. Gubisch
- 10:00-10:30 *Coffee station*
- 10:10-10:30 PANEL "How would you do it?" Clinical cases: analysis and solutions -  
R. Bracaglia, P. Gottarelli, S. Grappolini, S. Pompei
- 10:30 **Live Surgery 2** - W. Gubisch  
Discussant from the Auditorium: N. Cerkes  
Discussant from the Operating Room: H. Foda
- 12:30-13:30 *Lunch station*
- 12:40-13:00 PANEL "How would you solve this?" Complications: analysis and solutions -  
S. Bruschi, G. Giudice, A. Grisotti, L. Vaienti
- 13:00 **Live Surgery 3** - H. Foda  
Discussant from the Auditorium: O. Gerbault  
Discussant from the Operating Room: D.J. Menger
- Special issues in rhinoplasty** - Moderators: R. Mazzola, E. Robotti
- 14:40-15:00 The difficult skin (thick/thin) and softening irregularities through camouflage - C. East
- 15:00-15:15 The aging nose - W. Gubisch
- 15:15-15:30 Chin advancement in rhinoplasty (video) - B. Guyuron
- 15:30-15:45 Ethnic rhinoplasty - B. Guyuron
- 15:45-15:55 The middle eastern nose - H. Foda
- 15:55-16:05 Three small useful tips in rhinoplasty - E. Robotti
- 16:05-16:20 Cocaine-related nasal defects - B. Guyuron
- Ideas and innovations** - Moderators: S. Bruschi, R. Bracaglia
- 16:20-16:25 Tutoplast fascia lata for the dorsum - W. Gubisch
- 16:25-16:30 Fibrin glue in various modalities of augmenting the dorsum - R. Bracaglia
- 16:30-16:35 Fibrin glue with cartilage chips in endonasal rhinoplasty (video) - E. Muti
- 16:35-16:40 Burring the alar cartilages; an alternative shaping method - G. Bernabei
- 16:40-16:45 Fat grafting as an adjunct to rhinoplasty - M. Klinger
- 16:45-17:00 *Questions and answers*
- 16:30-17:00 *Coffee station*
- Medical rhinoplasty PANEL (botox and fillers)** - Discussants: O. Gerbault, S. Pompei
- 17:00-17:30 Botulinum toxin to the tip of the nose and surroundings (video) - F. Ingallina
- 17:30-18:00 Use of fillers to tip and dorsum (video) - F. Braccini
- 18:00 Selected abstracts corner prize. Wrap-up and Adjournment

Simultaneous translation will be available  
Italian ECM credits have been requested

We will be updating the website with bilingual information at [www.bergamoplast.com](http://www.bergamoplast.com)

# Programma

## Giovedì, 11 marzo 2010

- 12:00-13:00 Registrazione  
13:00-13:10 Presentazione e saluti
- Principi di base** - Moderatori: E. Robotti, R. Mazzola
- 13:10-13:40 "Open Anatomy": video 3D (cadavere) - L.P. Dombard  
13:40-14:00 Fotografia e simulazione - N. Cerkes  
14:00-14:10 Analisi facciale e analisi clinica preoperatoria - B. Guyuron  
14:10-14:20 La visita: valutare correttamente il candidato (S.I.M.O.N. vs. S.Y.L.V.I.A.) - C. East  
14:20-14:30 Rinoplastica nel maschio e nell'adolescente - C. East  
14:30-15:00 Sequenza logica della rinoplastica aperta (video) - B. Guyuron  
15:00-15:30 "Basic steps" della rinoplastica aperta: video 3D - L.P. Dombard  
15:30-16:00 Tecnica della rinoplastica aperta (video) - N. Cerkes  
16:00-16:10 *Domande e risposte*
- 16:10-16:30 *Coffee break*
- 16:30-16:45 Passaggio dalla rinoplastica chiusa all'aperta: perché ho cambiato - W. Gubisch  
16:45-17:00 "Meno": ottenere di più facendo meno: perché non ho cambiato - P. Palma  
17:00-17:20 Dinamica della rinoplastica- B. Guyuron  
17:20-17:35 Manovre "minime" in rinoplastica a massimo impatto - B. Guyuron  
17:35-17:45 Management peri e postoperatorio: evitare le complicanze - D.J. Menger  
17:45-17:50 *Domande e risposte*
- Punta (parte I)** - Moderatori: B. Guyuron, W. Gubisch
- 17:50-18:05 Suture - indicazioni / tecniche - B. Guyuron  
18:05-18:20 Innesti - D.J. Menger  
18:20-18:35 Aumentare e ridurre la proiezione della punta: il concetto di "tripode" dinamico - B. Guyuron  
18:35-18:50 Gestire la proiezione della punta (video) - L.P. Dombard  
18:50-19:20 Chirurgia in aperta della punta: "droopy tip", "lateral crural steal", "overlay" e "tongue-in-groove" (video) - H. Foda  
19:20-19:30 Suture a materasso transalari: effetto su estetica e funzione - O. Gerbault  
19:30-19:40 *Domande e risposte*
- 19:40-19:50 Follow-up sui casi del primo corso - G. Aiach, W. Gubisch, L.P. Dombard
- 20:00-21:00 *Cheese and Wine party*

## Venerdì, 12 marzo 2010

- Punta (parte II)** - Moderatori: H. Foda, C. East
- 07:30-07:45 Aumentare e ridurre la lunghezza del naso - W. Gubisch  
07:45-08:00 Il naso corto (video) - S. Bruschi  
08:00-08:15 Chirurgia della base alare e delle crura mediali (video) - B. Guyuron  
08:15-08:25 Restringere la base nasale: la tecnica combinata di escissione alare (video) - H. Foda  
08:25-08:35 Corretto trattamento dell'angolo naso-labiale - M. Pelle Ceravolo  
08:35-08:50 Conformare correttamente la punta - R. Mazzola  
08:50-09:05 Innesti di estensione settale e varianti per stabilizzare la punta - E. Robotti  
09:05-09:15 *Domande e risposte*

**Dorso** - Moderatori: N. Cerkes, L.P. Dombard

09:15-09:30 Precisione nell'allineamento del dorso: la "riduzione incrementale" (video) - H. Foda

09:30-09:45 Modellamento del gibbo e della glabella per un dorso corretto - D.J. Menger

09:45-09:50 Domande e risposte

09:50-10:10 Coffee break

10:10-10:25 Osteotomie - esterne/interne - L.P. Dombard

10:25-10:45 Linee estetiche del dorso: "spreader grafts" e "autospreaders" (video) - N. Cerkes

10:45-10:55 Domande e risposte

**Deviazione e Funzione** - Moderatori: O. Gerbault, D.J. Menger

10:55-11:10 Considerazioni funzionali in rinoplastica: setto, valvole, turbinati - P. Palma

11:10-11:30 Deformità del setto e chirurgia settale - B. Guyuron

11:30-11:45 Gestire correttamente le valvole nasali - W. Gubisch

11:45-11:55 Chirurgia dei turbinati: "Modified Inferior Turbinoplasty" (video) - P. Gottarelli

11:55-12:10 Il naso torto - H. Foda

12:10-12:30 Il naso deviato (video) - C. East

12:30-12:50 Settoplastica extracorporea (video) - W. Gubisch

12:50-13:00 Domande e risposte

13:00-14:00 Lunch

**Rinoplastica secondaria e complicanze comuni** - Mod.: W. Gubisch, B. Guyuron

14:00-14:30 Principi della rinoplastica secondaria - B. Guyuron

14:30-14:45 Complicanze: come prevenirle

Evitare i 10 errori più comuni in rinoplastica - B. Guyuron

14:45-15:15 Complicanze: come risolverle

Irregolarità del dorso, naso a sella, eccesso di riduzione delle alari, "becco di corvo", errori nell'osteotomia - W. Gubisch

15:15-15:35 Rinoplastica secondaria (video di G. Aiach) - O. Gerbault

15:35-15:50 Chirurgia di revisione della punta - H. Foda

15:50-16:00 Domande e risposte

16:00-16:15 Coffee break

16:15-16:30 Cartilagine frammentata e Fascia nella rinoplastica di aumento (video) - O. Gerbault

16:30-16:40 Innesti di cartilagine auricolare in rinoplastica - C. East

16:40-16:50 Innesti di cartilagine costale in rinoplastica - N. Cerkes

16:50-17:00 Innesti di calvaria e di mandibola in rinoplastica - R. Mazzola

17:00-17:10 Tecniche di "camouflage" - O. Gerbault

17:10-17:20 Correzione del collasso della valvola nasale esterna e della stenosi vestibolare - D.J. Menger

17:20-17:30 Riparazione delle perforazioni settali (video) - S. Mocella

17:30-17:40 Domande e risposte

17:40-18:25 PANEL "L'alternativa "chiusa", con i concetti condivisi" - G. Botti, M. Pelle Ceravolo, M. Klinger

18:25-18:35 Impiego di innesti al termine di una rinoplastica chiusa - G. Botti

18:35-19:00 PANEL "2 casi in 5 minuti" - A. Grisotti, G. Giudice, S. Grappolini, S. Pompei, L. Vaianti

19:00-19:30 Selected Abstracts Corner - Moderatori: A. Grisotti, L.P. Dombard

19:30-19:40 I tre casi di domani: "come lo farò" - B. Guyuron, W. Gubisch, H. Foda

19:40 Adjourn

20:30 Cena Sociale

## Sabato, 13 marzo 2010

- 07:50-08:00 Presentazione dei tre casi di oggi: "come lo farò" (registrata)
- 08:00 **Live Surgery 1** - B. Guyuron  
Discussant dall'Auditorium: C. East  
Discussant dalla Sala Operatoria: W. Gubisch
- 10:00-10:30 *Coffee station*
- 10:10-10:30 PANEL "Come lo faresti?" Casi clinici: analisi e soluzioni -  
R. Bracaglia, P. Gottarelli, S. Grappolini, S. Pompei
- 10:30 **Live Surgery 2** - W. Gubisch  
Discussant dall'Auditorium: N. Cerkes  
Discussant dalla Sala Operatoria: H. Foda
- 12:30-13:30 *Lunch station*
- 12:40-13:00 PANEL "Come risolveresti questo problema?" Complicazioni: analisi e soluzioni -  
S. Bruschi, G. Giudice, A. Grisotti, L. Vaianti
- 13:00 **Live Surgery 3** - H. Foda  
Discussant dall'Auditorium: O. Gerbault  
Discussant dalla Sala Operatoria: D.J. Menger
- Argomenti specifici in rinoplastica**
- 14:40-15:00 La cute difficile (sottile/spessa) e ridurre le irregolarità con il "camouflage" - C. East
- 15:00-15:15 Il naso del paziente più anziano - W. Gubisch
- 15:15-15:30 Avanzamento del mento in rinoplastica (video) - B. Guyuron
- 15:30-15:45 La rinoplastica etnica - B. Guyuron
- 15:45-15:55 Il naso medio-orientale - H. Foda
- 15:55-16:05 Tre piccoli utili accorgimenti in rinoplastica - E. Robotti
- 16:05-16:20 Correzione dei difetti nasali da cocaina - B. Guyuron
- Idee e innovazioni** - Moderatori: S. Bruschi, R. Bracaglia
- 16:20-16:25 Impianto di fascia lata TUTOPLAST al dorso - W. Gubisch
- 16:25-16:30 La colla di fibrina nelle varie metodiche per l'aumento del dorso - R. Bracaglia
- 16:30-16:35 La colla di fibrina con chips di cartilagine nella rinoplastica chiusa (video) - E. Muti
- 16:35-16:40 La fresatura delle cartilagini alari: metodo alternativo di modellamento - G. Bernabei
- 16:40-16:45 L'innesto di grasso come complemento alla rinoplastica - M. Klinger
- 16:45-17:00 *Domande e risposte*
- 16:30-17:00 *Coffee station*
- "Rinoplastica non chirurgica" (tossina botulinica e fillers)** - Discussants:  
O. Gerbault, S. Pompei
- 17:00-17:30 Tossina botulinica alla punta del naso e aree limitrofe (video) - F. Ingallina
- 17:30-18:00 Uso dei fillers alla punta e al dorso (video) - F. Braccini
- 18:00 Premiazione del " Selected Abstracts Corner" e chiusura del corso

Disponibile traduzione simultanea  
Crediti ECM richiesti

## Who should attend

Surgeons who wish to enhance their skills in rhinoplasty at all levels of experience.

After attending the meeting, the attendee should have the tools to achieve the best possible result when performing a rhinoplasty.

## Social Program

See website

## Abstracts

**Deadline: January 15, 2010**

Participants are invited to send abstracts on the subject of open rhinoplasty, concerning:

- innovations and new techniques
- selected cases of significant value

Other topics will not be considered for acceptance.

The best presented paper will receive an official prize at the end of the Course.

For further information see website.

## Course Objectives

At the end of the course, the attendees should be able to:

1. understand nasal anatomy and function
2. properly analyze common and less common rhinoplasty problems, correctly evaluate patients for surgery, and formulate a correct pre-surgical plan
3. appropriately perform the basic steps of open rhinoplasty, as well as a wide variety of modern techniques and modifications of varying complexity
4. select reproducible, predictable and appropriate techniques for specific problems in rhinoplasty
5. understand, prevent, recognize and correct complications

## Course Venue
